AutoLevelUp

Every Student Deserves to Level Up.

AI-powered learning + intelligent exam grading -- built for schools that want every student to succeed.

THE CHALLENGE

Every Student, One Speed

Every student in the same class learns at the same pace. Quick learners get bored. Struggling students fall further behind.

The Grading Mountain

A teacher with 5 classes spends entire weekends marking papers -- time stolen from lesson prep and family.

Students Who Slip Through

The quiet student who needs help won't raise their hand. By the time anyone notices, weeks of learning have been lost.

Parents Left in the Dark

Parents wait for term-end report cards. By then, catching up is a crisis, not a correction.

One Platform. Two Purpose-Built Products.

LvlUp Spaces

Continuous AI-Powered Learning

- 15 ways to learn -- quizzes, essays, coding, audio, and more
- AI tutor that guides students, never just hands out answers
- Difficulty adapts to each student -- always the right challenge
- XP, streaks, badges, and leaderboards that make studying rewarding
- Struggling students flagged before they fall behind

AutoGrade

Intelligent Exam Grading

- Scan answer sheets on any phone -- no special hardware
- AI reads and grades an entire class of papers at once
- Flexible grading standards that match your teaching style
- Teachers override any grade with one click -- AI assists, you decide
- Every student gets detailed, per-question feedback

One Platform. Every Stakeholder.

For Teachers

- Grade a full class exam in 8 minutes instead of an entire weekend
- Struggling students flagged automatically -- before they fall behind
- Per-question analytics reveal which concepts confused the most students

For Students

- AI tutor available 24/7 -- patient, helpful, never judges
- Difficulty adapts in real time so every student stays engaged
- XP, streaks, badges, and leaderboards make studying genuinely rewarding

For Parents

- Same-day alerts when exam scores drop -- no waiting for report cards
- See strengths, weak areas, and specific recommendations per child
- Side-by-side progress view for families with multiple children

For School Admins

- School-wide performance at a glance -- every class, every trend
- Complete cost visibility -- know what you're spending, always
- Staff permissions you control. Data exports for any report.
